One Day State level Seminar

On

**"Pollution Prevention
In Chemical Industry"**
(28th February, 2020)

Sponsored by

Department of Science & Technology,
Government of Gujarat &
Gujarat Council on Science and Technology
(GUJCOST)

Organized by:

Department of
**Environmental Science &
Technology**

**Shroff S. R. Rotary Institute of
Chemical Technology**

www.sRICT.in

WE SHARE BECAUSE WE CARE

ABOUT INSTITUTE

Shroff S. R. Rotary Institute of Chemical Technology (SRICT), established in 2011 is the first institute in Gujarat to offer B. E. in Environmental Science and Technology and Chemical Technology. It also offers B. E. in the field of Chemical Engineering, Mechanical Engineering and Electrical Engineering. The institute is affiliated with GTU, approved by AICTE, firmly supported by UPL group of industries and managed by the Rotary club of Ankleshwar. SRICT is located in a pleasant and peaceful environment and also in the center of chemical industrial hub of Gujarat - Panoli, Ankleshwar, Valia, Jhagadia, and Dahej.

SRICT aims to provide quality education to all our students and strives to be a world-class institute to impart knowledge, quality technical education and to develop top leaders required by chemical and allied industries.

SRICT is also Schedule-I Environmental Auditor of Gujarat Pollution Control Board with NABL accredited Environmental laboratory.

ABOUT DEPARTMENT

Department of Environmental Science & Technology (DEST) is well-equipped with rich laboratory facilities and possess skilled faculty members to lead students to excel in the field of environmental science and technology in order to provide economical, safe, and sustainable solutions of complex engineering problems pertaining to various environmental challenges.

The department is involved in carrying out different refresher courses, seminars, conferences etc. on regular basis. Faculty members are actively involved in the R & D activities and consultancy in close coordination with the industries.

ABOUT SEMINAR

Central and state laws present a complex and strict legal framework for managing air, water and hazardous waste and trying to prevent pollution from industries. Prevention of pollution has become mandatory both because of legal framework & also due to environmental preservation & optimum utilization of the natural resources which leads to environmental sustainability. The benefits of pollution prevention and environmental sustainability not only include cost savings and regulatory compliance, but also improve working conditions for employees and create a better world to live.

The seminar will explore aspects of pollution prevention in the area of:

- + Waste Water Management in Industry (Focus on Troubleshooting)
- + Solid Waste Management & Legislative aspects
- + Air Pollution (Dispersion Modeling and Control measures)
- + Cleaner Production
- + Technological Aspects

REGISTRATION

Application should be duly filled in the prescribed format along with the demand draft or Cheque. It should reach to institute on or before due date.

- + Cheque/DD should be in favor of “Ankleshwar Rotary Education Society” payable at Ankleshwar.
- + Confirmation will be given on first come first basis.
- + The faculties from the academic institutions, persons from the industries, research scholars and the students can participate in the program.

Delegates from Industry	INR 2000
Academician	INR 1000
Students	INR 750
IEI Member	INR 500

The registration fees includes registration kit, breakfast, lunch & high tea.

TRANSPORTATION

Travel expenses will have to be borne by the participants themselves or by their sponsoring organization.
