(MRP)

FORMAT

Gujarat Council on Science and Technology
Department Of Science and Technology
Government of Gujarat
Block-B, 7th floor,
Sector-11, Gandhinagar-382 011.

1.0 Preamble

There is a need to foster innovative technologies/ideas which have potential to contribute in socio-economic upliftment of the people of State and to transform Gujarat society to a scientifically and technologically developed one. To inculcate an advanced scientific temper amongst its people so as to enable Gujarat to leapfrog in to the next phase of development as a predominantly knowledge-based society, the state government intends to encourage R&D institutions to upgrade their facilities, take up contract research projects and get affiliation with international agencies/ institutions for gaining international acceptability.

2.0 The Scheme

The scheme will be known as Minor Research Project.

3.0 Nature of Project Support

(i) Science & Technological Studies and Surveys

This includes support for carrying out S&T studies/surveys including techno-economic analysis, simulation modeling and studies etc; and development of State S&T database, S&T resources, State S&T policy issues; specific status reports etc: The activities under this head should lead to specific action plan for project generation.

(ii) Location Specific Research and Technology Development

Identifying/projectising S&T programmes including support for development oriented location specific research and technology development.

(iii) Pilot Scale Demonstration Projects

Pilot scale demonstration projects including field trials etc based on technologies developed by S&T Agencies/Labs/Institutions etc. relevant to the State needs.

(iv) Joint Programming

To evolve and support certain joint programmes focussing on multi-sectoral area based approach to rural/regional development in cooperation with multiple State & Central Institutions. These areas should be so identified where S&T intervention could significantly improve the existing socio-economic conditions.

(v) Information Exchange and Experience Sharing

This would include meetings/workshops and other means of information exchange and interaction of S&T experts and/or of S&T field activists etc: Workshops on dissemination of specific technology, Project/programme formulation workshops.

(vi) Industrial Problem

This would include the problems faced by small/medium scale industries which are not in position to invest individuals for research for their problems.
